

"Magic Touch" Drawer for Cash Registers
One for all

"Magic Touch" Drawer for Cash Registers

The extremely sturdy and value-for-money Olympia "Magic Touch" ECR drawer with its eight note and eight coin compartments is an optimal solution not only for the Euro introduction period.

Variable divisions for both coins and notes make it ideally suited to those areas where considerable amounts of money are taken and stored.

The metal drawer is opened easily by simply depressing a button positioned on the front.

The coin compartment can be removed separately and exchanged.

Receipts can be stored easily and safely under the coin compartment by inserting them in slots in the front of the drawer.

Whether under the cash register or the counter, the "Magic Touch" looks good and does a good job anywhere.

Performance features:

- Stable metal housing, matt surface chassis
- Dimensions: D = 415 mm, W = 410 mm, H = 110 mm
- Weight: 6,8 kg
- Metal drawer with lock
- Button to open the drawer easily
- 8 note compartments (2x4 horizontal), removable
- Separate, removable coin compartment with 8 coins, variable divisions
- 2 slots in the front for receipts
