The multi-talented ECR for Retail and Hospitality Environments:

ECR 360T

Performance and Features:

Model: **ECR 360T**

The Olympia ECR 360T offers both hospitality style (flat and waterproof) and raised keys which retailers generally prefer in retail environments. These two keyboard options are virtually unique at this level of electronic cash register.

Equipment:

- Single station clam shell thermal printer features a programmable header of 7 lines with a further 5 post transaction lines available.
- Receipt with multi font graphical logo
- Post sale receipt recall
- Single line numeric customer display
- 2 line, 10 numeric, 10 alpha operator display
- Scanner can be easily connected using one of the two RS232 communication ports
- Metal base and drawer with 4 note and removable 8 coin compartments
- Dimensions (W/D/H): 410 x 431 x 276 mm

Drop-In function:

This function enables the receipt roll to be changed easily with one hand.

Programming using:

- SERD-Manager for traders
- SERD-Helper for users
- Online functions via data cable or modem:
 - Electronic journal,
 - Finance report,
 - Sales PLU list
